

ECO Parts Cleaner

Cleaning and degreasing solution

Area of application:

For cleaning and degreasing of parts and workpieces.

Effective against grease, oil, oil coal, gunshot residues, resinification, solid materials, carbon residues, as well as deposits of any kind.

Suitable for metals and plastic materials, as well as rubber parts. Temporary corrosion protection is ensured during the cleaning process.

For cleaning of hardware in workshops and factories.

Properties:

- Ready for use
- Non-flammable
- Constant cleaning quality
- Solvent-free
- Non-flammable
- No marking required
- It acts biologically, protects the environment
- Low maintenance requirement, saves time and costs
- It can be combined with cleaning tabs that degrade hydrocarbons and keep the cleaning bath fresh for a longer time

Technical data:

Nature of the product	Liquid
Colour	Green
pH value	approx. 9

Application:

Polluted parts are cleaned using a brush with dipping or spraying.

For parts of sensitive aluminium alloys we recommend limiting the dipping time to 30 min.

After that, to work optimally, dry with compressed air for a short time.

Storage:

Protect from frost!

Always keep containers well closed, out of sunlight and out of reach of children. Do not expose to high temperatures.

In closed original trading units at room temperature it is stable for at least 24 months.

Packaging unit:

20 l canister, 24 canisters per pallet

Art.No.: 1939 - 02000

Other trading units on request.

Special information:

For commercial use only.
