Metal cleaning and maintenance creme

Area of application: Polishing and cleaning creme for all metals (stainless steel, chromium, copper, brass, nickel silver, etc.), plastics, GRP, HPL, polyester, ceramics, porcelain, glass, enamel.
 Especially suitable for ceramic glass hobs!
 Especially suitable for stainless steel indoors and outdoors, in canteen kitchens, gastronomy, butchers, bakeries, dairies, breweries, car service stations, shipping companies, indoor swimming pools, etc.
 For window frames of plastics and stainless steel, for stainless steel handrails and sheeting, as well as chromium fittings.

- Properties:**
- Without ammonium
 - With silicone
 - Non-toxic and acid-free
 - It contains slightly smelling solvents
 - It preserves and protects from corrosion
 - It prevents oxidation and tarnishing of metals
 - It prevents water stains and fingerprints
 - It does not bind dust on the material
 - Metals receive a high-gloss finish and protection from tarnishing which improves with the frequency of application
 - Water drips off
 - It does not leave any scratches or grooves
 - It removes deposits of lime and rust on enamel and ceramics
 - It removes deposits of nicotine, flyspeck and black streaks of heels

Certification: **Chemical Check, Steinheim**
 The product can be used in the course of a HACCP concept (Hazard Analysis and Critical Control Points) on the basis of the Regulations (EC) No. 852/2004 + 853/2004 on hygiene of foodstuff, for cleaning in the food sectors.

Technical data:	Nature of the product	Paste
	Colour	White
	pH value	approx. 9

Application: The material is washed using a wet sponge with a bit paste on it until water drips off (use cold water).
 Then dry it using a chamois or leather cloth and polish it slightly using a soft cloth.
 No black cleaning rags anymore, no exhausting polishing work.
 For strong rust formation and baked-on dirt, allow the paste to act for approx. 5 minutes; then rub it off with paper.
