

Bar washing paste TOPCLASS

Metal cleaning and maintenance creme

Area of application: Polishing and cleaning creme for all metals (stainless steel, chromium, copper, brass, nickel silver, etc.).

Especially suitable for stainless steel equipment in canteen kitchens, gastronomy, butcheries, bakeries, dairies, breweries, beverage industry, etc.

Properties:

- Without ammonium
- Silicone-free
- Neutral in odour and taste
- It prevents water stains and fingerprints
- It preserves and protects from corrosion
- It contains slightly smelling solvents
- It prevents oxidation and tarnishing of metals
- It does not leave any scratches or grooves
- It cleans, maintains, and polishes in one work step

Technical data:

Nature of the product	Paste
Colour	Yellowish
Density	1.09 gsm
pH-value (concentrate)	approx. 10

Application:

The material is washed using a wet sponge with a bit paste on it until water drips off (use cold water).

Then dry it using a chamois or leather cloth and polish it slightly using a soft cloth.

No black cleaning rags anymore, no exhausting polishing work.

Storage:

Always keep containers well closed, out of sunlight and out of reach of children. Do not expose to high temperatures.

In closed original trading units at room temperature it is stable for at least 24 months.

Packaging unit:

1.25 kg can, 5 pieces in cardboard box Art.No6770 - 00125

Other trading units on request.

Special information:

For commercial use only.
